SUMMARY

Information Systems bachelor's graduate and master's student at the Technical University of Munich with experience in agile software development, quality assurance, test automation, and technical delivery processes. Business-IT bridge profile: able to understand requirements, structure processes, communicate technical topics clearly, and support quality-oriented solution delivery. Joining Allianz Markt und Kunde in Operations & Processes on 15 October 2026. Focused on IT consulting, IT project management, business analysis, and digital transformation.

PROFESSIONAL EXPERIENCE

From 15/10/2026 — **Working Student – Operations & Processes**
Germany — **Allianz Markt und Kunde**
Upcoming role; start date confirmed for 15 October 2026.

2023 – Present — **Working Student Quality Assurance / QA**
Munich, Germany — **Cleversoft Group GmbH**

- Quality assurance for software solutions in an agile Scrum environment close to development, testing, and release preparation.
- Create, maintain, and execute automated test cases with Selenium, Cypress, Playwright, and JMeter for functional requirements and regression coverage.
- Analyze requirements and acceptance criteria from business and technical perspectives to improve test coverage and delivery readiness.
- Prepare CI/CD test environments by configuring data importers, test data, and deployment jobs.
- Perform structured defect analysis, reproduce issues, document findings, and track issues in Jira.
- Document test results and technical workflows in Confluence; collaborate with developers and business stakeholders.

EDUCATION AND STUDIES

10/2026–Present | Master's Program in Information Systems
